

Thanks again for allowing Medtronic & Henry Ford to come speak to the MICNP Detroit Chapter, last week. We hope your organization found the information valuable. As promised, I have compiled a list of DBS treating Neurologists who are located in the Detroit area. The physicians highlighted in blue are Movement Disorder Neurologists. Please feel free to forward this email on to your chapter members so that they may have my contact information. If anyone would like patient education or more details, I would be happy to assist. My line is open anytime!

Clinton Township **Jay Kaner, D.O.**
Tri-County Neurological Associates PC
